NATIONAL POLYCYSTIC KIDNEY DISEASE AWARENESS WEEK

Mr. McCONNELL. Mr. President, I ask unanimous consent that the Senate proceed to the consideration of S. Res. 564 which was submitted earlier today.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The assistant legislative clerk read as follows:

A resolution (S. Res. 564) designating September 10 through September 16, 2006, as "National Polycystic Kidney Disease Awareness Week" and supporting the goals and ideals of a National Polycystic Kidney Disease Awareness Week to raise public awareness and understanding of polycystic kidney disease and to foster understanding of the impact polycystic kidney disease has on patients and future generations of their families.

There being no objection, the Senate proceeded to consider the resolution.

Mr. McCONNELL. Mr. President, I ask unanimous consent the resolution be agreed to, the preamble be agreed to, and the motion to reconsider be laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 564) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 564

Whereas polycystic kidney disease (known as "PKD") is the most prevalent life-threatening genetic disease in the United States, is a severe, dominantly inherited disease that has a devastating impact, in both human and economic terms, on people of all ages, and affects equally people of all races, sexes, nationalities, geographic locations, and income levels;

Whereas, based on prevalence estimates by the National Institutes of Health, it is estimated that about 600,000 patients in the United States have a genetic inheritance from 1 or both parents called polycystic kidney disease, and that countless additional friends, loved ones, spouses, and caregivers must shoulder the physical, emotional, and financial burdens that polycystic kidney disease causes;

Whereas polycystic kidney disease, for which there is no cure, is 1 of the 4 leading causes of kidney failure in the United States;

Whereas the vast majority of polycystic kidney disease patients reach kidney failure at an average age of 53, causing a severe strain on dialysis and kidney transplantation resources and on the delivery of health care in the United States, as the largest segment of the population of the United States, the "baby boomers", continues to age;

Whereas end stage renal disease is one of the fastest growing components of the Medi-

care budget, and polycystic kidney disease contributes to that cost by an estimated \$2,000,000,000 annually for dialysis, kidney transplantation, and related therapies;

Whereas polycystic kidney disease is a systemic disease that causes damage to the kidney and the cardiovascular, endocrine, hepatic, and gastrointestinal organ systems and instills in patients a fear of an unknown future with a life-threatening genetic disease and apprehension over possible genetic discrimination;

Whereas the severity of the symptoms of polycystic kidney disease and the limited public awareness of the disease causes many patients to live in denial and forego regular visits to their physicians or to avoid following good health management which would help avoid more severe complications when kidney failure occurs;

Whereas people who have chronic, life-threatening diseases like polycystic kidney disease have a predisposition to depression (7 times the national average) and its resultant consequences due to their anxiety over pain, suffering, and premature death;

Whereas the Senate and taxpayers of the United States desire to see treatments and cures for disease and would like to see results from investments in research conducted by the National Institutes of Health and from such initiatives as the NIH Roadmap to the Future;

Whereas polycystic kidney disease is a verifiable example of how collaboration, technological innovation, scientific momentum, and public-private partnerships can generate therapeutic interventions that directly benefit polycystic kidney disease sufferers, save billions of Federal dollars under Medicare, Medicaid, and other programs for dialysis, kidney transplants, immunosuppressant drugs, and related therapies, and make available several thousand openings on the kidney transplant waiting list;

Whereas improvements in diagnostic technology and the expansion of scientific knowledge about polycystic kidney disease have led to the discovery of the 3 primary genes that cause polycystic kidney disease and the 3 primary protein products of the genes and to the understanding of cell structures and signaling pathways that cause cyst growth that has produced multiple polycystic kidney disease clinical drug trials;

Whereas there are thousands of volunteers nationwide who are dedicated to expanding essential research, fostering public awareness and understanding of polycystic kidney disease, educating polycystic kidney disease patients and their families about the disease to improve their treatment and care, providing appropriate moral support, and encouraging people to become organ donors; and

Whereas these volunteers engage in an annual national awareness event held during the third week of September and such a week would be an appropriate time to recognize National Polycystic Kidney Disease Week: Now, therefore, be it

Resolved, That the Senate—

(1) designates September 10 through September 16, 2006, as "National Polycystic Kidney Disease Awareness Week";

(2) supports the goals and ideals of a National Polycystic Kidney Disease Awareness Week to raise public awareness and understanding of polycystic kidney disease (known as "PKD");

(3) recognizes the need for additional research into a cure for polycystic kidney disease; and

(4) encourages the people of the United States and interested groups to support National Polycystic Kidney Awareness Week through appropriate ceremonies and activi-

ties to promote public awareness of polycystic kidney disease and to foster understanding of the impact of the disease on patients and their families.

SUPPORTING AND COMMENDING THE NATIONAL SEXUAL ASSAULT HOTLINE

The PRESIDING OFFICER. Without objection, it is so ordered.

The assistant legislative clerk read as follows:

A resolution (S. Res. 537), supporting the National Sexual Assault Hotline and commending the Hotline for counseling and supporting more than 1,000,000 callers.

The PRESIDING OFFICER. There being no objection, the Senate proceeded to consider the resolution.

Mr. McCONNELL. Mr. President, I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, and the motion to reconsider be laid upon the table, and that any statements relating to the resolution be printed in the RECORD as if read without further intervening action or debate.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 537) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 537

Whereas it is estimated that a sexual assault occurs every 2.5 minutes in the United States and more than 200,000 people in the United States each year are victims of sexual assault;

Whereas 1 of every 6 women and 1 of every 33 men in the United States have been victims of rape or attempted rape, according to the Department of Justice;

Whereas the Uniform Crime Reports of the Federal Bureau of Investigation rank rape second only to murder in the hierarchy of violent crimes;

Whereas research suggests that sexual assault victims who receive counseling are more likely to report the assault to the police and to participate in the prosecution of the offender;

Whereas, in June 2006, the National Sexual Assault Hotline (referred to in this preamble as "Hotline") helped its 1,000,000th caller;

Whereas the Hotline operates 24 hours per day, 365 days per year, offering important, free, and confidential crisis intervention, support, information, and referrals for victims of sexual assault and their friends and families;

Whereas the Hotline was created by the Rape, Abuse & Incest National Network (referred to in this preamble as "RAINN"), a non-profit corporation, the headquarters of which are located in Washington, D.C.;

Whereas the Hotline answered its first call on July 27, 1994, and operated solely with private funds for the first 10 years the Hotline was in existence;

Whereas RAINN continues to operate the Hotline today, in partnership with 1,100 local

rape crisis centers in the 50 States and the District of Columbia and with over 10,000 trained volunteers and staff, and in collaboration with coalitions against sexual assault in each of the 50 States;

Whereas the Hotline helps an average of 11,000 people each month and in 2005 helped 137,039 women, men, and children across the Nation;

Whereas the public education and outreach undertaken by RAINN and local rape crisis centers have increased public awareness of sexual violence and contributed to a 58-percent decline in crimes of sexual violence since 1993;

Whereas the Hotline has experienced a significant increase in call volume as public awareness of sexual violence has grown, with calls to the Hotline increasing by 43 percent since 2003;

Whereas millions of Americans have learned of the services available through the Hotline, thanks to the public service promotion contributed by every national broadcast television network, a dozen cable networks, and more than 1,000 radio stations, newspapers, and magazines; and

Whereas the Hotline serves as an outstanding example of a successful partnership between the Federal Government, the private sector, and individuals: Now, therefore, be it

Resolved, That the Senate—

(1) supports the National Sexual Assault Hotline; and

(2) commends the National Sexual Assault Hotline for counseling and supporting more than 1,000,000 callers.
